And is Probably Fatally Burned-Her Son Badly Burned While Endeavoring to Save Her-Flames Findlly Subdued by her Husband who Tears the

Clothes From her Back. The careless use of coal oil to kindle fires is likely to cause a death in Canton, Mrs. Augusta Draband, the wife of Charles A. Draband, residing at No. 73 Washington avenue, arose about 5:30 and in starting fire in the stove poured coal oil over the kindling. The fire did not burn readily and she took th oil can and poured more oil in the stove. The flames shot up and catching the oil in the can caused it to explode, throwing the burning oil over Mrs. Draband.

She was instantly enveloped in flames. He son, a boy about 14 years of age, who was sleeping in the room, jumped to his mother's assistance, badly burning his left hand and arm. The husband, who was sleepanother room, was aroused and hurried to the aid of his wife. The flames were so fierce as to render it almost impossible for him to get near her, but he succeeded in pulling the burning clothes from her body, not

however, until she had been severely burned. The flames were extinguished and Mrs. Dra band was given what attention was necessary to relieve her sufferings.

Dr. Schuffeil was called and rendered medical aid. The doctor says it is doubtful if she has not received fatal injuries. Arrangements have been made to have the suffering woman removed to Aultman hospital. At present she is suffering intense pain, being a mass of burns from her bead to her feet, and her body is swellen to almost twice its natural size. The neighbors are kindly rendering her every assistance in their power to relieve her pain.

DONATION TO MINERS.

Canton Committees Doing Noble Work and Sending Many Supplies.

Canton has done nobly in providing for the suffering miners and their families at Canal Fulton and North Lawrence. Tuesday the relief committee purchased over 200 pairs of shoes for distribution among the sufferers. Of these 115 pairs go to North Lawrence and about an equal number to Canal Fulton. A large number of these shoes were miners, shoes although a great many women and children's shoes were also sent. In addition to the shoes 10 barrels of flour were also purchased and sent to North Lawrence. The relief committe have been untiring in their efforts to provide relief for the sufferers in our own county. Large quantities of clothing have been donated by various parties, and is being sent to those in need of it. Canton can always be depended upon to do her share in charitable work.

The case of John Braithwaite against Charles Krider is on trial before Judge McCarty. The suit grows out of some money won by Braithwaite on the Corbett and Mitchell prize fight. Before the money was paid over Braithwaite was arrested and sentenced to the penitentiary. While he was confined in the penitentiary his wife sued him for divorce, and was given \$100 money and this money was attached and paid over to Mrs. Braithwaite. Sterling and Werntz appear for Braithwaite and E. G. Willison for Mr. Krider.

The case of W. F. Schario, against the city of Canton is on trial before Judge Taylor in court room No. 2. The case grows out of the paving of North Market street. J. C. Welty and Day, Lynch & Day, appear for Mr. Schario, and Solicitor Collins and T. C. Meyer for the city.

HORSEMEN WIN.

THEY GET THE FAIR GROUNDS FOR ONE YEAR.

The Agricultural Society Reserve the Grounds for the Knights of St. John and the Bicycle Club, July 3, 4 and 5, But it is a Question if They Want it-Embarrassing Position for Both

Organizations. There was considerable amusement, for the nlookess at the meeting of the Agricultural society Tuesday afternoon. The horsemen wanted the lease of the grounds for the year the Canton Bicycle club wanted the grounds for their State meet, July 3, 4 and 5, and the Knights of St. John wanted the grounds on the 4th of July for their prize drill. The Agricultural Society wanted to give it to all

three so as to make everybody happy. A committee of the horsemen and of Agricultural Society had a meeting Monday evening and discussed the proposition submit ted by the society as given in Monday's NEWS DEMOCRAT. This proposition the horsemer could not accept. They made the society a proposition, to have the exclusive control of the grounds for one year, the society to put the track in proper shape in the spring, the borsemen to pay \$500 for the same or if the

rsemen put the track in shape to pay \$400. The Agricultural Society and a committee omposed of J. C. Welty and A. M. McCarty representing the horsemen, finally agreed o terms Tuesday afternoon by which the horse men get the entire control of the grounds and buildings, except the Art hall, Floral hall and the cattle and sheep barns. The horsemen are to put the track in propeshape in the spring and to keep the same i repair during the year. The horsemen get all the grass, and the use of all the horse barns The Agricultural Society reserve the control of all the other buildings. The society also re serve fair week and July 3, 4 and 5. Fair week the horsemen give up all the grounds in cluding barns, but July 3, 4 and 5 they have the use of the barns only. The horsemen are to keep a man in charge of the grounds the en tire year and return the grounds in as good condition as they get them. The horseme also agree to allow any picnics or family re unions to be held on the ground free of charge No intoxicating liquors will be sold. For this privilege the horsemen are to pay \$300 for the year. The reason for the reduction in wrice was on account of the society reserving July

, 4 and 5.

After the horsemen had secured their leas the fun commenced. The Bicycle club had in a proposition to rent the grounds for the three open dates at \$25 per day, while the Knights of St. John offered \$150 for July 4 with the privilege of using the grounds on the 3rd and 5th to erect and remove lunch stands, etc. Both societies were represented, the Bicycle and Guy Tilden and the Knights by Sanitary Policeman James Sell. Numerous efforts at a compromise were made by outsiders, but the representatives of the two societies could not agree. When the Agricultural society announced its decision, it was to the effect that they would rent the grounds to the two societies for \$200 for the three days, and if the two societies could not agree, they could rent to neither. This seemed to be the only way out for the Agricultural society, but Mr. McMurray could not see it that way, and stated that it was probable that the offer would not be accepted by the Bicycle club. The difficulty lies in a division of the two societies of the expenses and receipts for the 4th of July. The local commandary of the Knights of St. John want to admit the visiting Knights, in uniform, to the grounds free. It is expected there will be about 1,200 of these. The Bicycle organizations want the use of the track. The Knights say they can get through by 2:30, but the club want to start their moes at 2 p. m. This makes another hitch. If the visiting delegations of the Knights arrive in Canton in the morning, and the parade gets started on time, they could get through with their drill by 2 and leave plenty of time for the races. But if trains would get late and the parade be slow in starting there would be no telling when the drill would be finished. These matters could all be adjusted if the two societies could only get together. In case the Bicycle club should

abandon their meeting it is quite probable that the horsemen will pay the other \$200 and give three days race meeting on the grounds. The Agricultural society did the best thing they could do under the circumstances. It was a wise thing to rent the ground for the year to the horsemen, as the grounds will be kept in good condition and a record made for the new track, which will be valuable in the future. While the rental seems low yet the cost of putting the track in shape will be considerable. The estimated cost of doing the work has been placed at from \$125 to \$200 and it wil be the work of one man and a team every day to keep the track in proper shape, after it is once put in condition. This and the expense or watching the grounds to prevent trespassis expected that a large number of horses can se secured for work over the Canton track and at the meetings to be held here during the year, a number of fast records will be made which will all add to the value of the track as

a drawing card in the future. It is hoped that some arrangement will be made between the Bicycle club and the Knights of St. John, whereby both organizations may receive benefit. The Knights' meeting and the Bicycle club meeting will be big affairs. Both organizations will be at heavy expense and it is unfortunate that the

The Bicycle club met Tuesday evening and discussed the situation in terms that were not measured. The boys felt that the Agricultural society had left the matter in very poor shape. It cannot be seen by the Bicycle club men how a joint affair with the Knights of St. John can be a success, financially, for either organization, with the expenditures increased and the receipts going two ways. The club members feel very friendly towards the horsemen and towards the Knights of St. John, but think that the Agricultural society's decision that both organizations or neither can have the grounds on the dates named, is very unfair. It leaves matters in shape that neither organization can go ahead. Should a decision e reached that a joint affair would not be profitable neither society will get the grounds. A committee was appointed to meet with the Knights of St. John and consider some propositions. The meeting will be held Thursday

In any event the Canton Bicycle club will entertain the State meeting. If the fair grounds cannot be secured there are other grounds that can. The Agricultural society does not meet until August, which adds to the inconvenienc all parties are put to.

Newark, N. J., Evening News, "Most certainly," was the emphatic reply of Dr Morse when asked by a "Nows" reporter if the words of commendation of Dr. David Kennedy's Favorite Remedy, that recently appeared in the press was veritable.

years after, he related to me the case of a patient of his who had been cured of stone by solvents. Naturally I inquired into the matter, and be told me. In the town of Dalton, Mass., his patient lived, and that he had literally suffered many things of many physicians, and they the best of the state. There had been a diversity of opinion as to his allment, but the dector had diagnosed chronic inflammation of the kidneys, and his prognosis had had been 'incurable.' I had known of this allment, many more wreak of a man wifering and case—a mere wreek of a man, suffering and pessimistic. But now, greatly to my surprise, the doctor told me that he was actually cured. He had taken Dr. David Kennedy's Favorite Remedy, and not only had grown stronger and better, but had passed several pieces of stone. The remedy had promoted the masses of the The remedy had promoted the passage of the calculi and had acted as solvent. I say this msn a few days later looking well, feeling finely and speaking in the highest terms of the Remedy. I was led to examine it chemically and to test it thera-peutically. My deductions have been such as to corroborate the clinical experience of many other medical men, that Dr. David Kennedy's Favorite Remedy will do that which is claim for it; and I consider it a great discovery."

The great value of Dr. David Kennedy's
Favorite Remedy lies in the fact that it dissolves the excess of uric acid in the blood. Many of the ailments people suffer from—for in stance rheumatism, neuralgia, nervousness, dyspepsia, kidney, liver and urinary troubles, and the sickness peculiar to women, come from this cause. Favorite semedy dissolves this acid, except it from the system.

The populists met in mass convention he assembly room in the city hall Tue-day evening for the purpose of putting a complete nunicipal and township ticket in the field. The room had been been portioned for the various wards and township precincts and each delegation was under a banner and pole and voted eparately.

At about 7:30 o'clock Allen Cook, in his casacity of city chairman, called the convention to order and rehashed a last fall speech. Allen was later made permanent chairman. T. J. Meals was elected secretary and J. H. Durstock assistant secretary. Charles Ite was made vice-chairman in order to put motions when the other officers of the convention were being nominated for places on the ticket.

Dr. Cock, J. F. Davis and James Brissel were appointed committee on permanent organization, T. J. Meals, John Flynn and Charles Ite on rules and H. W. Kerch, J. W. Gilbert and A. H. One lone representative from Canton prefinct decided to be his own chairman. There was no representative from North Industry precinct.

Resolutions were read by H. W. Kerch, af firming the Omaha and Columbus platforms, and the principles and policies enunciated therein. With reference to local matters the resolutions say: "We demand an honest, economical administration of city and township affairs, and further, that all taxation for publiimprovements be first submitted to a vote of the people."

The resolutions were adopted, but at this critical juncture Curtis S. Wood, of the Fifth ward, called attention to the fact that the call for the convention had not been read, and that all business was therefore irregular. The chairman was confused at the oversight, but decided that the call should be read. Then the convention proceeded to

BEING SENT OUT FROM FORT SMITH ARKANSAS,

With Reference to the Death of a Norwalk Young Man Who Committed Suicide Shortly After a Canton Young Man Left Him-A Letter From Fort Smith Explains Matters

With reference to the mysterious death of James Cox, in Ft. Smith, Ark., the particulars of which were published in the NEWS-DEMO-CRAT a few days ago, the following telegram

is being printed: 'The mystery attending the finding of a dead man with a bullet in his brain, ten miles from Fort Smith, in Indian territory, clearing up. The body identified as that of James Cox, whose father resides at Findlay, O. Cox's traveling companion was Thurman Brothers, of Canton, O. He is suspected of killing Cox. If Cox committed suicide he was shot again

after he was dead." In response to a letter of inquiry sent by friends in Canton, Marshal George J. Crump, of Ft. Smith, replied last night stating that the death of young Cox was without any doubt a case of suicide. The marshal explains how Cox shot himself, stating that a club was found by the gun which was used to fire it when it was in position. Thurman Brothers s at present at his home in Magnolia.

BIRTHDAY CELEBRATION.

Mrs. Gus Weber Surprised by a Large Number of Friends and Neighbors.

Yesterday being the forty-eighth birthday of Mrs. Gus Weber her friends took it upon themselves to make the event memorable. Accordingly last evening they assembled at a neighbor's house and to the number of forty proceeded to surprise the lady at her home, corner Cleveland avenue and North street. And they succeeded without a doubt, as the hostess was completely taken unawares. After the greetings were over they presented Mrs. Weber with a friendship ring, after which the guests dispersed throughout the rooms, amusing themselves with games and other diversions until 10 o'clock, when they were invited into the dining 100ms to partake of an excellent lunch, after which the amusements were resumed and continued until a late hour. When the guests finally dispersed, the wish was expressed to the hostess that they might be present at many more of her anniversary celebrations. The following were among the surprisers: Christ Stump, wife and family; Geo A. Young, wife and family; Al. Rigler, wife and family; Mr. Peters and wife, Henry Stuck and wife, Dave Balmaat and wife, Mrs. Fairfield and son, Mrs. Becher, Mrs. Rickert, Mrs. Devarney, Mrs. Robinson, Mr. and Mrs. Rice Mr. Crode, Mr. Hasler, Miss Aikens, Miss Miller, Miss Spiro, Mrs. Brisbin.

RECEPTION AND DANCE.

The Cook Residence the Scene of a De-

lightful Evening Party. The Cook residence, at No. 395 North Market street, was the scene last evening of a most brilliant reception and dance, given by Mr. and Mrs. George E. Cook, in honor of their guest, Miss Peters, of Cincinnati. About one hundred ladies and gentlemen assembled on invitation, and, with the exception of a few who played cards, the evening was pleasantly spent in dancing. The commodious hall of the residence was beautifully decorated with flowers and vines, and, filled to its utmost capacity, presented a scene of beauty as the guests dance ed to music by the Canton Orchestral club, led by Prof. Rumsby. The ladies present each received as a souvenir a water color hand-painted calendar. An elaborate lunch was served during the evening. Those present from out of town were: Miss Wakefield, of Pittsburg; Miss Smith, of Clearfield; Miss Beeson, of Uniontown; the Misses Wales and Karthaus, and Mr. Wales, of Massillon, and Mr. James War-

wick, of Cleveland.

INCOME TAXERS HAPPY

Friends of the Method Gratified at the Outlook.

BELIEVE IT WILL BE POPULAR.

The Greater the Amount Realized the Mere Firmly Rooted as Government Pollcy It Will Become-The Revenue

May Reach \$50,000,006.

WASHINGTON, Jan. 28 .- Members of congress who believe in the income tax as an equitable method of raising revenues, are gratified at the quexpectedly good showing of the preliminary canvass made by the collectors of internal revenue at the direction of Secretary Carlisle. They believe that the greater the amount realized from this tax, the more popular it will become and the more firmly rooted as a part of the policy of the government. Representative McMillin of Tennessee says that if a large per cent of the revenue of the government is derived from this plan, any attempts to repeal it before the expiration of the a-year limit fixed in the Wilson bill, will be exceedingly unpopular, and that the greater the revenue derived from it, the greater will be the probability of its re-enact-

ment at the end of its term. When the proposition to tax incomes was before congress, the profit from the scheme was at first estimated at from \$15,000,000 to \$18,000,000 Later the estimates of the committee were raised to the vicinity of \$30,000,000 of Missouri, who has given more study, perhaps, to the theory and history of the income tax than any other man in the house did not place the total below \$50,000,000. From the results of the canvass of the internal revenue bureau it appears that Mr. Hall was more nearly correct than the other forecasters. He now says that the income tax may yield more than \$50,000,000, and it is known that the treasury department officials do not place its results below that mark. The showing made by the 86 of the 68 districts gives ground for the estimate that about 800,000 persons and corporations will contribute to the

treasury by this plan. MORE ANIMATED SPEECHES.

The Hawaiian Question Comes Up In

the Senate. Washington, Jan. 28.—The week in the senate opened with the renewal of the discussion of the Hawaiian question, which promises to become the subject of several more very animated speeches before it shall be definitely and finally disposed of. The adoption of the Vest amendments, the Allen resolution instead of discouraging the an tagonists of the administration has ap parently had the effect of spurring them to even more strenuous and pronounced opposition. They express themselves as hopeful of reversing the verdict of Saturday when the next vote shall be reached, which shall be on the final adoption of the substitute. Senator Teller inaugurated the discussion

for the week with a continuance of his speech began S urday. The Hawaiian question will be con-tinued to the two first hours of the sessions each day, and will at the expiration of this time give way to other sub-The bankruptcy bill has been given the position of unfinished busi-ness and will occupy attention for the greater part of the week. George will inaugurate the debate with a speech some time today. He expects measure to encounter very pronounced opposition, and in this will not be disappointed, as a majority of the eastern and northern senators found to be against the bill. When the bill is disposed of in whatever way, the senate will probably proceed to consider the pooling bill. If the threatened conflict between this and the territorial admission bills should occur, a majority of the Republican senators would support the faction favorable to taking up the pooling bill and would probably

turn the tables in its favor.

The Week In the House. Washington, Jan. 28.—The programme in the house for the week will subject to revision in case President Cleveland sends a special message to congress calling for legislation to protect the gold reserve. A New York Man Will Get It.

Washington, Jan. 28. - Secretary Carlisle has about completed the reorganization of the office of the supervising architect of the treasury, and it is understood will very soon select a successor to Mr. O'Rourke. The indications now are that none of the applicants for the place will receive the appointment and that Mr. Carlisle will probably tender the position to Mr. John M. Carrere, of the firm of Carrere & Hastings. 44 Broadway, New York. It is not known whether Mr. Carrere yould accept the appointment, but it is
